NEWSY NOTES FROM NEARBY TOWNS

SEPECIAL TELEGRAM TO THE DISPATCH. HARRISBURG, Feb. 1 .- Executive Commissioner Whitman, of the World's Fair Department, held a conference to-day with Henry C. Ford, W. L. Powell, Henry C. Demuth and S. B. Stillwell, members of the State Fishery Commission, relative to the State exhibit of fish and fish products to be made at the Columbian Exposition. The Commissioners adopted a reshlution to co-operate with the World's Fair Board of Managers by preparing and caring for an exhibit, provided the necessary expenses are paid out of the State appropriation for the World's Fair. Commissioner Whitman has issued a circular of intermation for intending exhibitors, in which he says:

tending exhibitors, in which he says:

Citizens who may wish to contribute material of State product with the purpose of having the same used in the construction of the building, will have that privilege, provided they apply in time and subject to a compliance by the building committee.

The Exposition will be divided into 12 creat departments, each one of which will be assigned a separate place in the main buildings. All exhibits of a competitive or a business nature will be made in one of these buildings, and every article will be shown in its proper department. No distinct space will be set apart for an exhibit by States or trities in the buildings devoted to machinery, manufacture or transportation.

will be set apart for an exhibit by states or tities in the buildings devoted to machinery, manufacture or transportation.

All exhibitors will stand on a common footing. The assignment of location and space is wholly in the hands of the authorities at Chicago. All that can be done by this office is to use its best efforts to secure just consideration for Pennsylvania exhibitors. There will be no charge for space to exhibitors, but they will be required to look after their products or arrange with other parties to have them looked after.

When two or more parties wish to make a joint exhibit it should be done under the application. Applications for space from this State should be made as early as practicable, in order that our citizens may have a good claim for favorable consideration. The State will not pay any expenses for preparing exhibits on the part of individuals, firms or conporations.

Blank application forms will be sent from this office to all citizens of the State who

Blank application forms will be sent from this office to all citizens of the State who may write for the same. These forms con-tain the general rules governing exhibits. In case he concludes to apply for space, the one marked "original" is to be sent by him to Chicago; the "duplicate" is to be returned to this office for filing and record.

#### A PITCHED BATTLE FOR 86.

#### The Constable's Posse Levying on a Horse Meets Desperate Resistance.

CONNELLSVILLE, Feb. 1 .- [Special.] - The little mountain village of Mill Run, 12 miles southeast of this place, was the scene of a desperate fight Saturday night between Farmer John C. O'Donneil and family on the one side, and Constable Sizel Bingham and five deputies on the other. One of O'Donnell's neighbors recently sued him to recover a debt of \$6, and judgment was rendered. Last Saturday the constable went to O'Donnell's home and tried to levy on a horse. Mr. O'Donnell ejected the constable, who returned to the village and secured the Jacob Cummings and John Williams. The squad, led by Bingham, went directly to the barn, where they expected to levy on the

horse.

As the posse entered the yard they were met by ten Irishmen, led by O Donnell, each with a shotgun at his shoulder, while Mrs. O'Donnell, with a half dozen children, backed them up with a reserve line of pitchforks, axes and other war-like implements. One of the deputies dashed O'Donnell's gun from his shoulder, causing the weapon to from his shoulder, causing the weapon to discharge in the air. This was the signal for a fierce pitched battle which lasted for some time. The O'Donnell family fought like demons. The conflict lasted until O'Donnell demons. The conflict lasted until O'Donnell fell forward on his face, struck down by two pistol shots. The injured man was then handcuffed, and the deputies levied on the horse at last. O'Donnell has an ugly wound in the thigh and another in the arm, and his condition is critical. He came from Pittsburg some years ago. The deputies will be arrested for feionious assault.

### HELP COMES TOO LATE

#### Cashler Hoyt Expected Funds to Tide Him Over Up to the Bank's Closing.

CHICAGO, Feb. 1 .- [Special.] -- Excitemen over the Hoyt bank failure here is growing rather than diminishing. Cashier Hoyt will make no statement of assets and liabilities Close estimates made by the principal de positors and ereditors are that the liabilitie are between \$35,000 and \$40,000, while the assets are an unknown quantity outside of Hoyt's few personal holdings. tian Scientists to Pool Their Issues. FINDLAY, Feb. 1 .- [Special.]-A queer re ligious convention began here to-day, and will continue for nine days. The delegates are from all over the country, and represent faith-cure adherents, sanctificationists, Christian scientists and others holding equally peculiar doctrines. About 300 dele-gates are here.

gates are here.

The object of the convention is to organize all those holding these independent views into a body known as the "Christian Alliance." New York, Boston, Chicago, Philadelphia, Cincinnati, Gleveland, St. Louis and other cities have representatives present. Today's proceedings were larvely present, To-day's proceedings were largely of a preliminary character. The real work of the convention begins to-morrow.

#### THE COMING CONJUNCTION.

The Meeting of Jupiter and Venus Cor sidered by Local Astronomers-Their Close Proximity the Only Point-It Oc curs at 6:05 on Saturday Evening.

Astronomers as a rule are not advocates of astrology. Notwithstanding this fact, the exclusive story in yesterday's Dis-PATCH regarding the coming conjunction of Jupiter and Venus caused a vast amount of interest among all classes of people. Prof. J. E. Keeler, who sits up nights and studies objects of planetary importance, was asked his opinion of the matter. "I attach very little significance to the

conjunction of Jupiter and Venus," said he, and the scientific researches of the Eastern astronomer will not go down in history as a startling discovery. There is not a year that these two planets don't come in coninnetion with each other. The only point o interest in the event of February 6 is their close proximity for a short period. Away back before the invention of the telescope, when this occurrence happened the r ple who gazed at the two planets with naked eyes thought it was an extraordinary phenomenon, because they seemed so close together that they could not be distin-guished one from the other. The superstitious folk thought such a conjunction meant terrific collision of two stellar worlds, which would be followed with awful results. If you observe the conjunction on Saturday night through a telescope you will notice that the planets are many miles apart, if you can reckon distance in the skies by such measures. We will not have an advantageous position, such as is af-forded Australia, but it will be witnessed by us sufficiently well enough for all the im-port it is to science. The conjunction can be witnessed by Pittsburgers at about 6:05

## BREAK PREDICTED

An Official of the Local Club Makes an Important Statement.

NEW YORK CLUB MEANS TO FIGHT.

Official' Weights for the Brooklyn and Suburban Turf Handicaps.

LOCAL FOOTBALL PLAYERS MEET

Two or three of the directors of the local ball club talked in very plain terms regarding the new League yesterday afternoon One who is known as a very conservative and cautious gentleman went so far as to say that he heartily concurred in the suggestion of G. W. Williams to start a new Association. He went on to say that he has never been so disgusted about anything in his life as he has been concerning the manner in which the majority of the new League have treated Pittsburg and are inclined to continue that treatment. He was in earnest in what he said. The other director, even a more important man in the club, while not so radical in his declarations, was equally bitter in feeling. He said to the writer:

Some Pointed Remarks. "I am fully convinced that there will b to 12-club League after this year. Everything that is going on points to that con-clusion. Why, it is a fact that the most im-portant clubs in the new League are completely overruled. The four new members, Association parties, are linked to a trio, Messrs. Robison, Brush and Byrnes, and they control the entire organization. But, mark my words, Boston, New York and Philadelphia will not stand it, to say nothing of Pittsburg. There will be a break and no mistake. But let me say that Pitts-burg will always be in the National League as long as we have a club. I would sooner forfeit at once all I have invested in the club than be identified with a new associa-

"Of course this is a serious matter, and I am talking seriously. People are talking considerably about our kicking, but let us look at the facts. At the League meeting in New York we were asked to go and sign all the good players we could in the American Association so as to weaken that body and strengthen ourselves. We came home and started out to do what we were re-

#### Lost Hundreds of Dollars.

"We spent hundreds of dollars and secured Grimm, Weaver, Lyons, and were after Boyle. While we were spending our money the people who were running affairs knew what they had agreed to do at the Indianapolis meeting, but never in the least gave us a hint to stop our efforts to sign the players named. They let us go on spending money, and when we signed our men they were taken from us. The rulers of the new League knew in November what was going to be done, and still we were not advised as to the best thing to do. Was this fair treatment? Certainly not. And still people wonder why we are dissatisfied. Depend upon it, our time will come."

Coming as they do from a prominent official, the foregoing remarks are very, very, significant to baseball patrons. They indicate more or less trouble sooner or later regardiess of whether there is sound cause for them or not. "We spent hundreds of dollars and secured

Doesn't Need Advertising. The other day Charley Mitchell was asked

if he was not trying to advertise himif he was not trying to advertise himself by challenging Sullivan. "I need
no advertising," replied the Englishman. "I am as well known in America as
Sullivan, and have a better record as a man
and a fighter. It is as much of an advertisement for Sullivan as for me. In fact, I made
Sullivan by getting him a match with Jake
Kilrain and giving him a chance to regain
the prestige which he had lost by my fighting a draw with him. He forfeited to me
twice, and I never lorfeited to him. If the
match is made I will be on hand at the
proper time."

The jag left town with Slavin after the persuasive nowers of Parson Davies had been applied. For a short time there were prospects of a call for police, but it was averted.

#### AGREED ON TERMS.

Pittsburg Football Players Comply With the Chicago Team's Conditions. The proposed football game for the cham-pionship of the East and West between the Pittsburg and Chicago Cricket Club teams looks like a go. Yesterday a letter was re-

ceived from the Chicago players stating their terms to play here, and at a meeting of the local club last evening these terms were accepted. The game will take place on Washingtonia

The game will take place on Washington's Birthday, and Goubtless it will be one of the most important that has been played in or about Plttsburg. The team who are coming here are not the Thistles, as some people seem to think, but the football team of the Chicago Cricket Club. The latter eleven are the champions of the West.

The local team will play the McKeesports Saturday week, probably, at Liberty Park. The team for the McKeesport game are: Ike Attewell, W. Powell, J. Attewell, T. Attewell, C. B. Childs, J. Campbell, E. Waldron, J. O'Brien, J. Wardle, J. McEwan, J. Mathews.

#### Baseball Notes.

AND now the rumor comes that New York wants JERRY DENNY will not play third base for Washington, as reported. GUS WEYHING was acquitted of stealing two prize pigeons at Louisville recently. MARK BALDWIN is to receive an additional \$200 advance money, making his total \$500.

It is very significant that already magnates East and West are talking about the new League being too big.

It would be extremely pleasing to a few people if a general row would start among the magnates of the new League. THE salary list of the Boston League team this season will be \$65,000, far in excess of the salary of any other team in the country. Anson has resolved to take his team to Hot Springs before the season opens. The players have been notified to report March 7. #### General Sporting Notes.

PETER MAHER has commenced training for Fitz FRANK COLLING, the local pootseller and sport-ng man, left last night to attend the St. Louis

ock recently and probably ruined himself fo A. A. ZINMERMAN, the bicyclist, has again been expelled from the amateur ranks for accepting ev for his services.

SCHAEFER has accepted the challenge of Ives to play for the billiard championship and the contest will take place in Chicago March 10.

IF Australian Billy Murphy arrives on the next steamer as expected, the California Athletic Club will offer a purse for him and Vau Heest to fight for. GEORGE MACDOUGAL, of Butte, Mont., is willing to match his deerhounds against P. H. Hacke's wolfhounds to course and kill wolves. A match will be made.

JIMMY BARNES called at this office last evening and stated he will take the unknown's place again sheehan, of McKeesport, for a purse if the cor est is to a finish.

CALL SHAN's right hand was so badly damaged that it is absolutely useless. It will be necessary for him to be on the shelf for a long time before go-ing into the ring. He will probably retire for not less than a year. The first three foals of the famous racer Han-over are all filles, and they are all at the Mc-Grathians stock farm of Milion Young. One of them is out of Spinaway, and if breeding goes for anything she should be as fasts at the wind, for both of her parents were magnificent 2-year-olds.

HEADQUARTERS AT PITTSBURG. The B. & O. Has Decided to Make a Divisi

From Cumberland to Akron.

It has been learned on good authority that a circular will be issued by the Baltimore and Ohio road in a few days making one division of the line from Cumberland through Pittsburg to Akron. Third Vice President E. C. Lord was in the city on Saturday looking over the ground. The headquarters for the division will be in Pittsburg. The officials hope to put on a through passenger service to Chicago in the spring. The only thing remaining is what changes, if any, will be made along the line. It is not believed by railroad men that any of the local officials will be dropped. Both Superintendent Holbrook, of the Pittsburg division, and Snperintendent Patton, of the Pittsburg and Western, are valuable men, and they will have their hands full to look after their sections of the road with the in-creased business. In addition they are personal friends of Second Vice President King, who appointed them. The work of strengthening the Pittsburg and Western and the Akron branch is going on rapidly under the direction of Engineer W. W. Manning, formerly of the Pittsburg

division A special train of three cars containing the leading officials of the Baltimore and Ohio road and a number of New York and London bankers reached Ellwood from Chicago Sunday afternoon. The party put up at the Hotel Oliver, and spent the after noon looking around the town. The Baltimore and Ohio officials started for Baltimore yesterday morning and the bankers went East. They expressed themselves as well pleased with Ellwood. The Baltimore & Ohio people were arranging the final details to run the main line through Pittsburg.

C. Seymour Dutton, a Youngstown iron agent, left for Harrisburg last evening. He says the iron business continues to be dull in the Mahoning and Shenango Valleys. Mr. Dutton thinks the iron men have figured too much on an immediate distribution of the money from the sale of the large crops. It will take some time yet to get the proceeds into the hands of the farmers. Considerable development is expected building operations are extensive this sum-mer a demand for nails and iron materials will be created. Mr. Dutton adds that in the last few years a large number of fur-naces and mills have been built. It is a hard thing for the country to keep the pace

#### Aid for Disabled Firemen.

The disability board met yesterday afternoon and passed favorably on the claims of Robert Edwards of No. 8 Company and Louis Ackner of No. 7 Company, who were injured during the month. The financial report of Clerk Crosby Gray showed a total of \$22,516 96 in the fund during the year, and disbursements of \$4,754 83.

Buck Cornellus in Another Row. A lively fight occurred at the corner of Station street and Frankstown avenue last night between Officers Schafer, Tolus and Ransom and Edward St. Clair and "Buck" Cornelius. The two latter were being arrested for disorderly conduct. They resisted arrest, and a number of their friends attempted to rescue the prisoners. No one was seriously hurt, although Officer Schafer was beaten considerably about the head. The two men were locked up safely, and it is said several informations will be made against others.

La Grippe, Freumonia and Consumption

and more liable to be attended with fatal results when there is catarrh in the system. Among the prominent young men of Lawrenceville is Mr. Robert G. Hershey, who lives at 247 Main street. At times he experienced great pain in his forehead and temples. He had a clogged-up feeling in his nead and nose and weak eyes. His threat became sore in his effort to expel the tooch poisonous secretion that dropped from his head. It seemed to him as if something had formed in his throat that he could neither get up or down. As the disease extended to the tubes of his lungs his breath became short, he felt languid and more tired in the morning than on going to bed. In fact, catarrh weakened his wi. le system.
His own words: "I am very willing you should publish the history of my case, for I had suffered for nine or ten years. After taking treatment at your institute I became cured of all the above distressing symptoms. I shall be glad to further describe my case to anyone.

ROBERT G. HERSHEY."
